I AM SURE YOU MUST HAVE HEARD ABOUT THE GREAT INDIAN SCIENTIST, SIR CHANDRASEKHARA VENKATA RAMAN. ON THIS DAY IN THE YEAR 1928, HE DISCOVERED A PHENOMENON OF SCATTERING OF PHOTONS WHICH WAS LATER KNOWN AS 'RAMAN EFFECT' AFTER HIS NAME. AFTER TWO YEARS IN 1930, HE GOT A NOBEL PRIZE FOR THIS REMARKABLE DISCOVERY AND THIS WAS THE FIRST NOBEL PRIZE IN INDIA IN THE FIELD OF SCIENCE. TO MARK THE DISCOVERY OF HIS FAMOUS PHENOMENON, NATIONAL SCIENCE DAY IS CELEBRATED ON THIS DAY IN INDIA EACH YEAR.

African Violets

Divya Nair FT #199

I fell in love with African violets 23 years ago
When my mother, who was staying in Trivandrum,
used to ask me to get her these beautiful plants
from a small store -an Indo-American hybrid
nursery located at Church Street. Over the past
few years, I have collected, grown, and
propagated a few colors/shades of violets. And in
the process, I have fallen in love with them.
Once you get to know these precious plants, you
will realize that they are easy to care for and
they, in turn, will reward you with spectacular
blooms that will grace your home for a few days.
They do well in semi-shade with indirect light and
when they start flowering, I bring them indoors
to enjoy the beautiful blooms.
